What Sets Us Apart

When you step back to take in the view of the SoccerPlex's superior Bermuda and Blue Grass fields, the first word that comes to mind is "Spectacular." Each field is maintained at the highest level so that every player, from professional to collegiate to youth premier to youth recreational, is walking on to a "Field of Dreams." Maryland SoccerPlex fields are periodically rested, reseeded, and pattern mowed to ensure that each is of highest superiority. Although standing back and viewing our 192 acres of rolling topography is amazing, it doesn't compare to the faces of the players when they step on the field to play.
