Dear SoccerPlex Community,

Following Governor Hogan's announcement on May 27th and County Executive Elrich's announcement from May 28th, the Maryland SoccerPlex will begin the reopening process. While the Governor and County Executive have provided the ability to allow small group trainings on outdoor fields beginning tomorrow, the short notice does not allow our facility the time to properly prepare to open to the public. **The Maryland SoccerPlex will remain closed to the public until at least Monday June 15th.**

While we would love to welcome everyone back immediately, the time will be utilized to make sure everyone is as safe as possible when our community steps on our fields. The extra week will allow us the time to prepare the facility for small group training on outdoor fields. It will also allow us time to establish the necessary health protocols as advised by the CDC, Health Department, and leading medical authorities and appropriately train staff in those protocols. We will issue new protocols and procedures next week for all users of the facility which will be a requirement and condition of use. The protocols will address ingress and egress to the facility and fields, social distancing, limitation on capacity and spectators, equipment, and cleaning procedures for the facility. Field space will be limited and available on a reservation basis only.

Please note, the Adventist HealthCare Fieldhouse **remains closed**. All activities scheduled indoors remain cancelled or postponed until indoor sports activities can be resumed per Executive Orders of the Governor of Maryland.

We thank you for your patience and we hope you and your family stay safe.

Respectfully,

Matthew Libber
Executive Director
Maryland SoccerPlex
